TUESDAY APRIL 12.

FIRST DISTRICT CONVENTION.

The republican electors of the First congressional district, are hereby notified that a convention will be held at Clinton Junction, Tuesday, May 1st, at 2 p. m., for the purpose of electing two delegates and two alternates to represent this district in the national republican convention to be held at Chicago, June 19th. Also to name one presidential elector and to transact such other business as may properly come before the convention. Rock county will be entitled to 13 delegates, Walworth 9, Racine 7, Jefferson 8, and Kenosha 5.

W. H. HURLBUT, Chairman.
GEO. A. YULE, Secretary of Committee.

A FREE TRADE LIE NAILED.

The advocates of free trade are not lacking in ways that are dark and tricks that are vain in the effort to give their pet theory a boom. They are not lacking in the ability to do some pretty solid lying when they think they can make a point against the American system of protection. To prove this, the Gazette will deal in a few facts.

A short time ago there was a free trade discussion in Boston, at which Mr. R. T. Wheeler, speaking for democracy and free trade, said:

There is the great Meriden Britannia company. They make plated goods of the best quality. In making these goods they need nickel. Years ago, when this metal was discovered in the mines of Austria, the miners called it nickel because they could make nothing of it. But our friend, Mr. Wharton, of Pennsylvania, who happens to own the only important nickel mine in the United States, has found out a way to make a very good thing out of it. If congress had passed a law to make him Duke of Lancaster and giving him a pension of $20,000 a year, you would have all called it a wicked waste of the tax-payers' money, a heavy burden upon industry, a setting up of a priviledged class opposed to the genius of American institutions. But in all except the name congress does this very thing when it puts so heavy a duty upon nickel that manufacturers are compelled to pay Mr. Wharton what he chooses to ask for the product of his mines. Now mark the result. The Meriden Britannia company has been obliged to build a factory in Canada, where it can get nickel free of tax and with the products of this factory it supplies the demand for plated goods in Canada and in England. All this might just as well have been done in the United States, if it were not for the pension of $20,000, more or less, that a protective tariff compels you to pay to Mr. Wharton, of Pennsylvania. Now I assert, without fear of contradiction, that if the manufacturers of plated goods in this country could get their nickel free of tax they could supply the markets of the world. The demand for labor would be increased, and, of necessity, the wages of the laborer would go up. But no; our industry may suffer, our laborers be deprived of work, our people lose the fruits of their skill and enterprise; all these may perish, but let Mr. Wharton levy his annual tax and mislead the people by calling it protection to American industry.

The papers opposed to the protection of American industry and American labor, reproduced this speech of Wheeler's to show the "robbery" in protection. But Mr. Radclyffe, secretary of the Boston Home Market club, sent a letter to the Meriden company, of Connecticut, with a copy of Mr. Wheeler's speech, and inquired as to the truth of the statements it contained. Mr. Horace C. Wilcox, president of the Meriden company answered the statements of Mr. Wheeler on the 31 of this month.

The reason why the Meriden company established a factory in Canada, was that they were practically excluded from that country by the protective duty it levied on nickel goods exported from the United States. Their trade was large in Canada and so to hold the business they were compelled to build a factory there, just as several English firms are doing in the United States. The duty on nickel had nothing to do with it, and furthermore not one cent's worth of the goods made in Canada are exported to other countries. The Meriden company not only did not move to Canada on account of the duty on nickel, but the fact remains that all the raw material used in the Canadian factory is furnished from Meriden! So that the price of material is the same in both countries.

Mr. Wilcox further makes a statement which free traders should read and remember. They grumble about the duty on nickel. What are the facts? Before the Wharton mine was discovered the nickel used in this country came from Europe, and the Americans had to pay from $1.50 to $2.00 a pound for it. A duty of 25 cents was placed on nickel when the Wharton mine was opened, but in 1883 the duty was reduced to 15 cents, so that the price of nickel is 65 cents a pound under protection, when it was from $1.50 to $2.00 a pound under free trade. Remove the duty on nickel, and that would not reduce the price of plated goods, for fifteen cents a pound duty is insignificant, as the element of cost in plated ware is skilled labor which is much higher here than in England, although the Meriden company pay the same wages at their Candian factory that they do in Connecticut.

These facts show how little regard free trade talkers have for truth when they want to show "how depraved" are the effects of a protective tariff.

A romantic but hazardous enterprise is about to be undertaken by a party of Catholic missionaries, which will soon leave the City of Mexico for southern Mexico with a view to converting the Lacondons, a wild tribe of Indians 25,000 in number, scattered over portions of the states of Campeche, Tabasco and Yucatan. They are reported to preserve the religious and social customs of the Aztecs in their primitive purity. It is said that they even offer human sacrifices to their gods. The country which they inhabit has never been explored, but there is a popular legend in the state of Tabasco that in the heart of the forests the Lacondons possess a city with temples and bazars such as were found by the Spaniards in Aztec cities on their first landing in Mexico. Few white men have penetrated this region, and none have ever returned alive. The Lacondons were never subdued by the Spaniards, and few attempts have been made to subjugate them. Since Mexico became independent, they have held themselves absolutely aloof from all intercourse with Europeans. The enterprise of the missionaries is considered extremely perilous. The Mexican government favors the conversion of the Indians. The party is composed of Passionist and Jesuit fathers, and their mission has the direct sanction of the College of the Propaganda at Rome, as well as of the archbishop and bishops of Mexico. Catholic organizations point to the undertaking as proof that the spirit of zeal and self-sacrifice among the Catholic clergy is as active to-day as in the times of St. Francis Xavier and his associates.

If the fisheries treaty is rejected by the United States it will be in deference to the Irish-American vote, and the fact will have to be regarded as a distinct triumph of Irish influence in America. That the triumph, however, if it comes, will be very long-lived, we cannot believe. It is hardly possible to imagine that the mass of American public opinion will ultimately allow the Irish vote to control their commercial policy. The United States are a tolerant people, but even they have a limit beyond which they will not suffer the Irish to affect their national affairs.—*London Economist.*

To this the New York Tribune replies: "This is a fair sample of English ignorance respecting American affairs. The fisheries treaty is opposed, and probably will be defeated, simply and solely because it involves a surrender of historic American rights and of reciprocal maritime and commercial rights that are guaranteed alike by the public law of Great Britain and the United States. The fisheries question is an American question, and will be dealt with by the senate without reference to the Irish vote. The Economist apparently does not know that the pending treaty was negotiated by an administration representing a party which ordinarily counts upon receiving the great mass of the Irish-American vote in the main centres of population. The fact that such an administration should have humbled itself before Great Britain and been duped into making so un-American a compact is a striking proof that Irish influence does not control the state department's diplomacy. Otherwise Mr. Chamberlain, who is not the patron saint of the Green Isle, would not have enjoyed so complete a triumph."

Major General Alfred Howe Terry who was placed on the retired list of the army last week, is said to be in a critical condition of health. He is suffering from Bright's disease. General Terry has had a distinguished career. For many years prior to the civil war he was active in the Connecticut state militia and in command of the 2nd regiment. The regiment was mustered into the United States service in response to a call for three months' volunteers, and was engaged in the first battle of Bull Run with Terry in command. Upon the return of the regiment Colonel Terry organized the 7th Connecticut Volunteers, for three years' service, and he went into the field with them. He was promoted to be brigadier general in April, 1862, for zeal and bravery: and in January, 1865, after the failure of the first attempt to capture Fort Fisher, he was selected to command the new expedition which successfully carried that work by assault on January 15. For this he received a vote of thanks from congress and was promoted to be Major General of Volunteers and Brigadier General in the regular army.

The Boston Transcript says that those democratic editors who are so glibly explaining that the republicans carried Rhode Island by boodle, and draw doleful pictures of the purchase of democrats in droves, do not stop to consider the idea the world will get of their party. A party whose voters can be bought up in such numbers and so easily certainly can not be considered any better than the corrupter. As a matter of fact, the use of money in elections is often exaggerated.

The Marquette county republicans have just held their county convention at Montello for the election of delegates to the state and sixth district congressional conventions. The delegates to the state convention are F. H. Conse and S. D. Forbes. The delegates to the congressional convention are, William H. Johnson, Robert Hume, C. E. Pierce and Frank Abbott. These are the first delegates to the state convention that have been elected.

On Monday in a speech in the Canadian parliament, Sir Charles Tupper supported the Fisheries treaty. He said that he would not describe all the advantages that Canada gained by it, as if he should do so, his statement would be published to-day throughout the United States as an argument against the ratification of the treaty. This is another feather in Secretary Bayard's cap.

The Philadelphia Press, the foremost republican paper in Pennsylvania, shows how Governor Rusk built better than he knew: "It isn't probable that Governor Rusk, of Wisconsin, had any thought of furthering his presidential prospects in making his recent trip to Washington, but that was one of the results of his visit".

The royal wooing is just now agitating all Europe.

IN THE BALANCE.

The Result of Mr. Conkling's Illness Still in Doubt.

A DAY OF THE DEEPEST ANXIETY.

Favorable Symptoms During the Earlier Part Followed by a Relapse—Late Bulletins Announce a Change for the Worse.

CONKLING'S STRUGGLE

NEW YORK, April 12.—Dr. Hartley issued the following bulletin at 12:30 o'clock this morning:

"Senator Conkling's condition has changed slightly for the worse. His temperature is one degree more than it was at 9 p. m., when it was 100 degrees, and his pulse beats six degrees faster to the minute than it did at that hour, when it was ninety. This indicates a return of the delirious fever that he has had."

At 2:45 a. m. there was no change in Mr. Conkling's condition. He was sleeping quietly.

At 9:15 p. m. Drs. Barker and Sands finished a consultation. Dr. Barker said the patient had had a sound, healthy, deep sleep from 3 until 8-10 p. m., and that his mental condition was excellent. The doctor said the sleep was good for the reason that it took away all strain from the nerves. The chances of the Senator's recovery were improved.

"Twenty-four hours ago," said the doctor, "his chances were one in a hundred; now the chances are one in twenty-five that he will recover. He has been steadily improving for the last four hours."

At midnight, after the doctor left, Mr. Conkling fell asleep again and seemed to be resting comfortably. During the physician's last visit for the night the message of sympathy given above was read to Mr. Conkling by the doctor, who, referring to the first signature, that of Mr. Voorhees, said: "How's this? Looks as though you were turning Democratic, Senator." He made no answer, but a merry twinkle lighted up his countenance for a moment.

He then noticed a handsome basket of flowers that had been sent to him and murmured: "How beautiful." At that hour, about 9 o'clock, the Senator's temperature was 100 and pulse 90. He was not suffering much pain. At midnight there was no change.

Dr. Loomis said that the operation performed upon Roscoe Conkling was identical with the one performed upon Thomas A. Edison, the inventor, whom he was so seriously ill a few years ago. The operation in Mr. Edison's case, added Dr. Loomis, was very successful, and was followed by symptoms very similar to those now being developed in Mr. Conkling's case.

WASHINGTON, April 12.—The following telegram was sent from the Capitol yesterday:

"UNITED STATES SENATE, WASHINGTON, D. C., April 11, 1888.—*To Mrs. Roscoe Conkling, Hoffman House, New York:* The undersigned, friends of your distinguished husband, beg to tender to him and to you our deepest sympathies; and to express the earnest hope that he may be restored to health and long spared to his country, his family and his former associates in public life."

The telegram was signed by the following Senators: D. W. Voorhees, James B. Beck, E. M. Cockrell, M. W. Ransom, John H. Reagan, Eli Saulsbury, Richard Coke, John T. Morgan, Isham G. Harris, A. P. Gorman, Wilkinson Call, Joseph E. Brown, J. C. S. Blackburn and James L. Pugh.

THE G. A. R. IN IOWA.

Over Fifteen Thousand Visitors Attending the Reunion at Cedar Rapids—General Tuttle's Address—A Net Gain of Nine Posts and 870 Members During the Year.

CEDAR RAPIDS, Ia., April 12.—There are over 15,000 visitors in the city attending the reunion. The weather is beautiful and the crowds enthusiastic. General Tuttle delivered the annual address yesterday morning. Referring to the statistics of the order, he said:

"The past year has been the most successful year in the history of the organization in Iowa. The actual strength of the department of Iowa December 31, 1886, was 335 posts and 15,775 membership. On December 31, 1887, there were 395 posts, with a membership of 17,646, showing a net gain during the year of nine posts and 870 members. During the year the expenditures for the relief of needy comrades and their families aggregated $8,950. The receipts from fees and the per capita tax of the department were $6,349; the expenditures, $5,938; cash on hand, $3,145. The department is entitled to nineteen delegates in the National Encampment."

The parade in the morning was the finest display of the kind ever witnessed here. The department elected J. W. Muffly, of Des Moines, delegate-at-large to the National encampment. Charges having been made that a certain history used in Iowa schools misrepresented the Union side of the late war, a committee was appointed to investigate, consisting of Captain Richards, Chaplain Brown, ex-Superintendent Akers and L. A. Riley. The history in question is said to be Barnes'. General Rea made a short address last night which created unbounded enthusiasm.

A Minnesota Murderer to Hang.

ST. PAUL, Minn., April 12.—The State Supreme Court has denied the application for a stay of proceedings in the case of Nelson O. Holong, under sentence of death at Fergus Falls, Minn., for murder. Holong will therefore be hanged on Friday. The case is a peculiarly atrocious one. Holong assaulted Lily Field, the daughter of his employer, and then killed her and fed the body to the hogs to conceal the crime. It will be the first hanging in the history of Otter Tail County.

Sensation in Pittsburgh.

PITTSBURGH, Pa., April 12.—Ensign Ryan, U. S. N., and President J. H. Mead, of the Arctic Ice Company, were held here Wednesday for abducting Rosa Parsons, the 17-year-old daughter of a prominent citizen of Allegheny. The girl disappeared ten weeks ago, and is now supposed to be secreted in New York. She was the leading soprano in the most fashionable Methodist church, and it is said was induced to leave her home under a promise that she would be secured a position in an operatic troupe.

TO END THE DEADLOCK.

The Democrats Concoct a Plan with That Result in View.

NO OPPOSITION ANTICIPATED.

It Is Proposed to Lay Aside the Direct-Tax Bill Until December 6—Ludicrous Scenes During Tuesday Night.

COMING TO THEIR SENSES.

WASHINGTON, April 12.—One hundred and eleven Democratic members of the House attended the Direct-Tax bill caucus last night. There was considerable discussion of plans to extricate the House from the deadlock which now clogs proceedings. At 11:15 the caucus adjourned, having adopted a resolution proposing that upon reassembling to-day the House shall adjourn with the understanding that the Committee on Rules will report a special order setting apart Thursday, December 6, next, for consideration of the Direct-Tax bill, on which order reasonable time, not to exceed three days, shall be allowed for debate and amendment of the bill, and that the time for the final passage of the bill be fixed for Tuesday, December 11.

There has been, of course, no conference among the Republicans as to the course they will adopt in view of the decision of the Democratic caucus. It is believed, however, that they will not resort to any unusual tactics to prevent the Democrats carrying out the caucus decision. Representative Cannon, of Illinois, who is chairman of the Republican Caucus Committee, said that while he did not feel warranted in speaking for his colleagues, he personally thought the Republicans would not resort to revolutionary proceedings to prevent an adjournment to-day. Such a course would be utterly at variance with Republican policy in the past. The Democratic party was in the majority, and he was willing to go before the country on the question whether the methods of the last week should be approved or not.

WASHINGTON, April 12.—At 9 o'clock yesterday morning the House was still constructively in session as of Wednesday of last week. The loungers of Tuesday night sought the shelter of the cloak and committee rooms, or escaped the vigilance of the Sergeant-at-Arms and went home to breakfast.

From 2 o'clock until daybreak the members of the House sat patiently in their seats, or reclined on the more easy sofas in the rear of the hall. No motions were submitted, no points of order raised, no parliamentary inquiries submitted. The House was in a state of siege. The advocates of the Direct-Tax bill, recognizing their inability to cope with the parliamentary tactics of their antagonists, refrained from any effort to dispense with further proceedings under the call of the House. The opponents of the measure, conscious of the fact that they would be outvoted upon any motion to adjourn, resisted from their efforts in that direction, and affairs came to a complete standstill. Now and then a gentleman would make a remark which would arouse the risibilities of such of the members as were not asleep, but throughout the night there were not scenes of sufficient interest to awaken the dozen occupants of the galleries who were peacefully dozing on the benches. As the early morning light broke through the glazed ceiling of the chamber a short informal recess was taken to enable the janitors to clear the floor of the accumulated rubbish of an all-night session, but the duty was very ineffectively performed.

Many ludicrous scenes occurred in the House during the night. Every place available for a man to stretch himself upon was occupied, except the broad marble mantelpieces over the open grate-fires in the corners of the hall; and some of the relays on guard even sought repose by sitting upon the small of their backs with legs thrown

AN ALL-NIGHT SESSION.

over a desk and heads resting upon the desk behind them. The more wakeful spirits amused themselves by playing jokes upon these.

Among the more laughable incidents were the tricks played upon Brumm (Pa.), Taulbee (Ky.) and Long (Mass.). While Taulbee, one of the most officiously-active and least influential of the majority, was snoozing, some wag hid his brogans, and when the Kentuckian was awakened by the fall of a bundle of Congressional records upon his stomach he could not find his shoes, though he good-naturedly searched under the sofas and behind the doors. Finally he found one shoe, and amid hilarious merriment and appeals of jesting members to put on his shoes he came down the aisle, and, rising to a question of privilege, asked how much time he had left. "The gentleman is out of order," said the Speaker, and Taulbee retired amid jeering laughter to appear a little later with odd shoes on his feet.

Mr. Brumm was the butt of a joke that closed his gaping mouth with a snap and dropped his long legs from the desk to the floor with undignified haste, and of course every body roared at his sudden waking in a fright. Somebody had pasted a placard upon the sole of his boot and another had touched a match to the paper.

Ex-Governor Long waked from a brief but sound slumber to find some difficulty in gaining an upright position, his legs having been tied to the top of the desk and a shower of paper balls rained upon him. The jolly and venerable Wade (Mo.) fell asleep on the back row and attracted the attention of the fun-lovers by loud snoring. They disengaged the green baize curtain from the brass railing behind him and wrapped the old man in it, so that only his bald pate was exposed to view. His make-up was completed with a tall paper fool's-cap drawn down over one eye and one ear, and the law-makers looked on and laughed as the tip of the cap swayed back and forth, keeping time with his heavy breathing.

At 10 o'clock the first business of the day was undertaken. It was a motion by Mr. Lockery (Mo.) that the Doorkeeper be authorized to open the doors and ventilate the chamber. Some belated filibuster objected from force of habit, and matters relapsed again. At a quarter past 10 Mr. Belmont (N. Y.) was brought to the front under arrest and forthwith charged with absence without leave. He said he was patched Tuesday and was accordingly absent in New York. A motion to excuse him was lost upon a viva voce vote, but was carried by 6 to 4 upon division.

As soon as order was restored the many members appeared on the floor who had been absent, and Mr. Weaver (Ia.) moved that further proceedings under the call which began at 5 o'clock Tuesday evening, be dispensed with. The eyes and nose were ordered on this proposition. Mr. Anderson (Kan.) was among the first names called, and that gentleman was interrogating himself by a shove and shrug. But he was equal to the occasion, and caused

much merriment among the observers by suddenly emerging in the hall with his face covered with leather and a towel neatly drawn round his neck to answer to his name. The vote resulted in the defeat of the motion to dispense with the call by a vote of yeas, 73; nays, 138, and the House relapsed into apathy.

The daily test vote was taken at 4 o'clock p. m., Mr. Taulbe (Ky.) officiating as reading clerk upon a motion to adjourn. This motion was defeated by a vote of yeas, 76; nays, 132—a falling off of four votes from the opposition and fourteen from the advocates of the measure as compared with the similar vote of Tuesday.

After a proposition submitted by Mr. Oates (Ala.) to take a recess until 11:45 today had been objected to by Mr. Reed (Me.), Mr. Allen (Mich.) rose to a question of privilege. A New York paper, he said, had published an article to the effect that a portion of the money proposed to be refunded to the States by the Direct-Tax bill would be paid to State agents. Among these States Michigan had been mentioned as one which would pay 40 per cent of the sum refunded to State agents. He desired to have read a telegram which he had received from the Governor of Michigan upon the subject. Mr. Breckenridge (Ky.) made the point of order that the gentleman had stated no question of privilege, as no charge had been made against the personal character of the gentleman, and as the State of Michigan was not a member of Congress. Mr. Allen replied that the gentleman from Kentucky had always been ready to defend the honor of his State, and that he (Allen) wished to defend the honor of his. The Speaker having sustained this point of order, Mr. Allen satisfied himself with the declaration that the published statement was false in every respect.

The telegram which Mr. Allen desired to read was from Governor Luce, of Michigan, and is as follows:

"Every dollar of direct tax refunded to Michigan will be placed in the State Treasury. No commission will be paid."

Undismayed by Mr. Allen's experience, Mr. E. B. Taylor (O.) rose to a question of privilege. The Speaker warned him that nothing was in order that did not concern the call, but Mr. Taylor managed to say, despite the gavel and uproarious cries of order, on the authority of the Governor of Ohio, that the statement that part of the money carried by the bill to Ohio's credit was to be paid to a State agent was a lie.

A roll-call was had about 4:45 p. m. on Mr. McCreary's (Ky.) motion to dispense with further proceedings under the call—yeas, 4; nays, 119.

Shortly after the vote had been announced Mr. Cox (N. Y.) appealed to the House to take a recess until to-day, saying that he was sure the members would all be the better for it. Objection was made, however, and Mr. Cox put his request in the form of a motion, which he withdrew, however, upon seeing the formidable opposition.

Mr. Breckenridge made another effort to adjourn the House about 6 p. m., but his motion was lost upon a yea and nay vote—yeas, 13; nays, 75.

At 7 p. m. Mr. Taulbee asked unanimous consent for a recess until 11:45 o'clock today, and there being no objection the recess was taken.

SENATE.

In the Senate yesterday bills were passed as follows: To purchase of the widow and children of the late General James Shields certain swords at a price not exceeding $10,000; for the erection of a monument to the memory of General Joseph Warren, who fell at Bunker Hill; appropriating $130,000 for a public building at Fort Worth, Tex.; increasing the limit of cost for the public building at Detroit, Mich., to $150,000; appropriating $10,000 for a monument to Brigadier-General William Lee Davidson, who fell in the battle of Cowen's Ford in February, 1781.

The bill for the purchase from Miss Virginia Taylor Lewis of a sword of Washington for $20,000 was taken up and read. It gave rise to a long debate, but the matter went over without action.

Senator Sherman (O.) from the Foreign Relations Committee, reported the Riddleberger resolution of inquiry relative to alleged British aggression in Venezuela. Portions distasteful to the committee had been stricken out, and as reported the resolution was passed simply as an interrogatory to the President. The President's message recommending the exclusion of French and German pork was referred to the Finance Committee. The Senate then went into secret session for a few moments, and confirmed—44 to 8—the nomination of J. L. Bathbone to be Consul General to Paris. When the doors were opened Senator Morrill (Vt.) took the floor for a speech on the President's tariff message, which he declared to be a passionate attack on American industries. Senator Morrill declared that the United States produced more minerals and live stock than any other country, but contended that these industries would be greatly injured should legislation be enacted on the lines of the President's message. The Dakota bill was taken up, and Senator Davis (Minn.) made a speech in support of division of the Territory. Senator Turpie (Ind.) obtained the floor and the bill was laid aside.

Coughlan Set Free.

CLEVELAND, O., April 12.—The case against John Coughlan, who was on trial for the second time at Ravenna, O., for the murder of Detective William Hulligan, of this city, has been dismissed by the prosecution. Coughlan was once convicted of murder, but a new trial was granted by Judge Johnston. Eleven jurors had been secured before the prisoner was discharged by the State.

An Imprisoned King.

LONDON, April 12.—Sir James Ferguson, Under Foreign Secretary, stated in the House of Commons Tuesday that a dispatch had been received from the Governor of Lagos announcing that Malleton, the deposed Samoan King, had been left at Cameroons as a prisoner by a German gunboat from Samoa.

Two Men Killed by a Falling Wall.

NEW YORK, April 12.—A brick wall in the rear of 506 East Seventy-fourth street fell yesterday, injuring several laborers and killing John Comity, a plumber, and Frederick Shannon, a laborer.

An April Snow-Fall in Vermont.

BELLOWS FALLS, Vt., April 12.—Six inches of snow fell Tuesday night and seriously damaged the telegraph and telephone lines. Trees and shrubbery also suffered extensively.

Immigrants Flocking Into Winnipeg.

MINNEAPOLIS, Minn., April 12.—A special from Winnipeg says that the number of immigrants arriving is increasing rapidly, and upwards of 2,000 have reached that point since the middle of March. Many are farmers from Ontario, who bring their stock and farming implements with them.

Kansas Will Go Dry.

ATCHISON, Kan., April 12.—The United States Marshal was ordered yesterday to close up Ziebold & Hacalin's brewery here, the last to hold out against the State Prohibition law.

A Warrant for Dillon.

LONDON, April 12.—A warrant has been issued under the Crimes act for the arrest of John Dillon, member of Parliament for East Mayo.

The Whole Vital Machinery.

Depends for the fuel, which is the origin of its propulsory force, upon the stomach. In that hidden alembic the food undergoes the chemical changes which transmute it into blood, from which the system draws the material that reimburses it for its daily losses of tissue. These are greatly augmented in disease. If the stomach, therefore, is weakened or disordered, the system is deprived of sustenance. Hostetter's Stomach Bitters surely can be relied upon to facilitate and renew digestion when that function has been interrupted by weakness of the stomach. Biliousness, or a diversion of the bile from its proper channel, which causes constipation, is also remedied by it. Heartburn, wind on the stomach, sick headache, fur upon the tongue, and other symptoms of stomach and liver disorder, it speedily removes. Malarial complaints of every sort, kidney and bladder troubles, constipation, rheumatism and neuralgia yield when it is used regularly and persistently.

THE FRESHETS.

They Daily Become More Ruinous in the Northwest.

MINNESOTA STREAMS STILL RISING.

Bridges Swept Away and Much Property Destroyed — Farmers Driven from Their Homes—Heavy Losses in Wisconsin Lumber Camps.

RUIN-BEARING FLOODS.

ST. PAUL, Minn., April 12.—The damage from floods in the rivers is still greater. The Zumbrota, Vermillion and Root rivers are still rising, and many bridges and several mills have been swept away. Travel on several railroads is completely stopped and many washouts are reported. Portions of the town of Zumbrota are under water. The dam at Hulbert's mill went out Tuesday afternoon, taking the flume with it, and let one corner of the mill down a few inches, making a loss of about $15,000. The bridges opposite the town on the turnpike have gone out. The water at Zumbrota falls is flooding the town and is four feet deep in many houses. Communication by wire or rail is entirely cut off between Zumbrota and Wabasha. A good part of the forty miles of track on the Wabasha division of the St. Paul road will have to be rebuilt. The dam at Cronoco went out Tuesday afternoon. At Hastings the water in the Vermillion river rose higher than ever known before Tuesday night, taking out over half a dozen bridges. No trains have arrived at La Crosse from the West over the Milwaukee road since last Thursday, because several miles of track are under water in the valley of the Root river. The bridges are all gone, villages inundated, and there is much distress at some points.

MOORESHEAD, Minn., April 12.—The water in Buffalo river, near Sabin, is still rising. Many farmers living near the river have been forced to leave their homes. Some stock has been lost.

MANKATO, Minn., April 12.—The river has fallen slowly. It will take all the week for the water to recede from the flats, but no more damage is feared.

RED WING, Minn., April 12.—On the Cannon Valley branch of the Minneapolis & St. Louis road, about seven miles out from this city, nearly two miles of track have been washed away, and no trains will be able to go over the road for several weeks. The damage is estimated at $75,000.

BERLIN, Wis., April 12.—The water in the Fox river is fully a foot higher than it was ever known before. It has been rising for a week, and is still coming up. All the factories have had to shut down. Fifty houses are surrounded by water here, but none will be floated away. It is feared that the new iron bridge will be swept away. It is already greatly damaged. The railway track is a foot under water for three-fourths of a mile, and trains run very cautiously.

ARCADIA, Wis., April 12.—The river is very high at this point, running through some of the lowest streets, but it is thought it has reached its greatest height. The railroad is badly washed out and no trains are expected from either direction for a few days.

EAU CLAIRE, Wis., April 12.—In the last three days the Chippewa and Eau Claire rivers have risen several feet, and they are still rising, but more slowly as lower temperature prevails. About one million feet of lumber, valued at $10,000, lying in rafts and belonging to the Eau Claire Lumber Company, was carried away yesterday. The debris carried out a piece of the Dewey street bridge over the Eau Claire. Travel is suspended over the Chippewa Valley division of the Chicago, Milwaukee & St. Paul by the impassable condition of the bridge across the Mississippi.

At Wabash, on the upper Eau Claire, the ice has destroyed the booms, but the dams are all intact and no further damage is expected.

GRAND RAPIDS, Wis., April 12.—The county bridge over the Wisconsin between Grand Rapids and Centralia was taken out by high water yesterday. About fifty people were on the bridge but all escaped without injury. The damage amounts to $20,000.

Fears are entertained for the safety of the business portion of this city and for part of Centralia. Merchants are moving their goods. If the jam holds out twenty-four hours the town will be flooded, and if the jam from above comes down the town will be wrecked. The water is still rising.

BELOIT, Wis., April 12.—Rock river keeps at a regular high stage. The *Free Press* office has been inundated and driven into temporary quarters.

SLAIN ON THE STREET.

Mark Duggan Killed in Leadville—The Noted Ex-Chief of Police Shot Down by Unknown Assassins.

LEADVILLE, Col., April 12.—Mart Duggan, ex-chief of police, was found by Officers Morgan and Williams early Monday morning lying on the pavement in front of the Texas House with a bullet hole behind the right ear. The shooting is a most mysterious affair, and has not been cleared up. Duggan told officers who discovered him that Alderman Bally's young son, of the Second ward, had shot him. Before he died, however, he retracted the statement, and refused to divulge the identity of his slayer. The police are investigating the killing. Duggan was about 40 years of age. He was a well-known character in Leadville, and had a reputation as a hard man. In 1878, during the strike, he was elected city marshal. During the wild and lawless reign of the mob he was the sole preserver of the peace. He was city marshal only two days when he killed a man named Jeffries in a dance hall, and followed this with six others during his official career.

Sentence Commuted.

WASHINGTON, April 12.—The President has commuted to imprisonment for twenty-one years the sentence of death imposed in the case of Richard Southerland, convicted in the Western district of Arkansas, of murder in the Indian Territory. He was to have been hanged on the 27th inst.

Claims the Reward.

SIOUX CITY, Ia., April 12.—D. W. Wood has laid claim to the $2,000 reward offered in the Haddock murder case, on the ground that he secured the return of Leavitt on whose evidence Fred Muncrath was convicted of manslaughter for the murder of Rev. Mr. Haddock.

Big Log Jam in Michigan.

CHEBOYGAN, Mich., April 12.—Nine million feet of J. C. Brown's logs jammed in the river above the dam. They fill the entire river from bank to bank. Men are engaged with dynamite to dislodge them, and considerable damage may be done when the jam breaks.

Alexander Weakens.

BERLIN, April 12.—It is reported that Prince Alexander has resolved to abandon his suit for the hand of Princess Victoria if a majority of the members of the Imperial family oppose him.

An Explanation.

What is this nervous trouble with which so many seem now to be afflicted? If you will remember a few years ago the word malaria was comparatively unknown—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and Malaria are intended to cover what our grandfathers called Biliousness, and are all caused by troubles that arise from a diseased condition of the Liver which in performing its functions finding it cannot dispose of the bile through the ordinary channels is compelled to pass it off through the system, causing nervous troubles, Malaria, Bilious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

"AN ACHING VOID."

A house without CURTAINS—and not only curtains, but Curtains of elegant design—would be very much like the play of "Hamlet" with the role of "the royal Dane" left out. Now, that we excel in Curtains, and do an immense trade in them, you need take your mind no farther back than last year to recollect. For that Department was for many days filled with Curtains—and with Customers, while country orders flowed in like a rushing river. This year we've outdone even ourselves. Here are some quantities and prices of

NOTTINGHAM LACE CURTAINS, imported by us direct from the manufacturers:

500 pairs	$1.50	200 pairs	$3.75
500 pairs	1.75	200 pairs	4.00
500 pairs	2.00	200 pairs	4.50
300 pairs	2.25	200 pairs	5.00
300 pairs	2.50	200 pairs	5.50
200 pairs	2.75	200 pairs	6.00
200 pairs	3.00	200 pairs	6.50
200 pairs	3.25	200 pairs	7.00
200 pairs	3.50	200 pairs	7.50

These come in several dist. net designs, have taped edges, and can be had in ecru or white. You'll notice that we haven't any trash at absurdly low prices. Such give no satisfaction whatever, and are not even worth the trouble of putting up. It is only by purchasing from the factories *at first hand* that we can give such big values as we do. We have also the latest novelties in SCRIM, MADRAS, TAMBOUR, ARTELIQUE, IRISH POINT, etc., by the pair or yard

Besides LACE CURTAINS we have elegant lines of CHENILLE DRAPERIES, ranging from $3.50 to $13.50 a pair; YARD GOODS in almost endless variety at popular prices; CURTAIN POLES and TRIMMINGS to suit all rooms and purses.

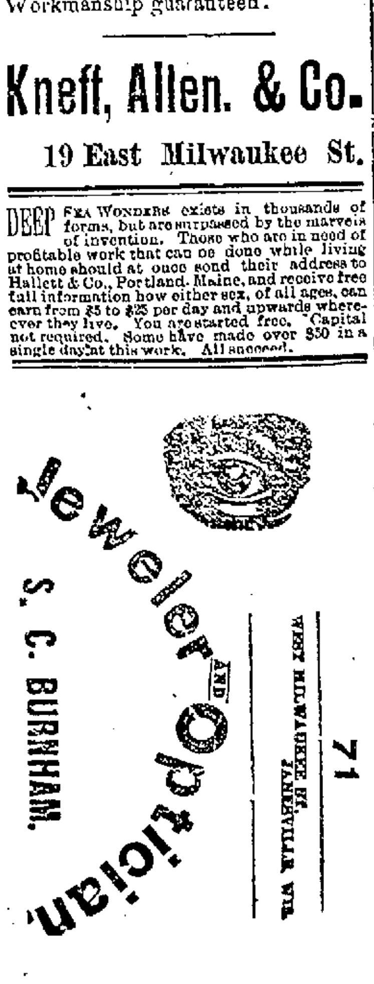
DEEP SEA WONDERS exists in thousands of forms, but are surpassed by the marvels of invention. Those who are in need of profitable work that can be done while living at home should at once send their address to Hallett & Co., Portland, Maine, and receive free full information how either sex, of all ages, can earn from $5 to $25 per day and upwards wherever they live. You are started free. Capital not required. Some have made over $50 in a single day at this work. All succeed.



THEY DID IT.

What? Cured among others the following. They write:

889 Central Ave., Cincinnati, O., January 4th, 1888.
Athlophoros Pills have cured me of liver complaint and dyspepsia. I gave ten to the Pills to a friend who is troubled with indigestion and he has improved wonderfully. F. H. ROWEKAMP.

10 Rossetie St., New Haven, Ct., February 10th, 1888.
Athlophoros Pills worked wonders in my case of dyspepsia. EMMA L. CLARK.

Ath-lo-pho-ros Pills are small and pleasant to take, yet wonderfully effective. Invaluable for kidney and liver complaints, dyspepsia, indigestion, constipation, headache, etc. They'll take away that tired feeling giving new life and strength.

☞ Send 6 cents for the beautiful colored picture, "Moorish Maiden."

DON'T

Allow your Clothing, Paint, or Woodwork, washed in the old rubbing, twisting, wrecking way. Join that large army of sensible, economical people, who from experience have learned that James Pyle's Pearline, used as directed on each package, saves time, labor, rubbing, wear and tear.

Your Clothes are worn out more by washing than wearing. It is to your advantage to try Pearline.

WILLIS MILES.
County Treasurer.
Dated this 2d day of April, 1888.

Gould and Sage Are Safe.

NEW YORK, April 12.—Recorder Smyth on Wednesday refused to submit the complaint against Gould and Sage, touching Kansas Pacific bonds, to the grand jury. A former grand jury, having refused to indict, and no new testimony having developed, the recorder said that a resubmission of the case "would be fatal to a firm, steady and impartial administration of criminal justice."

Another Candidate.

TOLEDO, O., April 12.—A report is being circulated here that an intimate personal friend of President Cleveland has received intelligence that Chief-Justice Waite's successor will be Judge Trunkie, now of the Supreme bench of Pennsylvania. His nomination for the position has been urged by Congressman Scott, Cleveland's recognized lieutenant in the Keystone State.

Retires from the Bench.

MILWAUKEE, April 12.—The announcement was made yesterday afternoon that Judge Charles E. Dyer, of the Federal Court for the Eastern district of Wisconsin, will retire from the bench. He leaves the bench to take the position of counsel for the Northwestern Mutual Life Insurance Company, made vacant by the recent death of D. G. Hooker.

Killed by a Falling Wall.

PITTSBURGH, Pa., April 12.—A wall of Haslage's building, in the block which was recently destroyed by fire, fell with a crash yesterday afternoon, crushing a small building adjoining. Four women were in the building, all of whom escaped with slight injuries except Bridget Walsh, who was crushed to death.

Stamping and Embroidery.

"Yes, Lizzie, I like to do fancy work, but I haven't felt like trying that pattern or anything else for a week. These awful dragging down pains are just killing me!" "I know how you feel and I can tell you where to look for relief. Dr. Pierce's Favorite Prescription is a certain cure for all these peculiar weaknesses and distressing ailments. Why! it even cured me of prolapsus, and many of my lady friends have been cured of various grave maladies peculiar to our sex by this wonderful medicine." It is the only medicine sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money refunded. Read guarantee on bottle wrapper.

DRUNKENNESS

Or the Liquor Habit, Positively Cured by Administering Dr. Haines' Golden Specific.

It can be given in a cup of coffee or tea without the knowledge of the person taking it; is absolutely harmless, and will effect a speedy and permanent cure, whether the patient is a moderate drinker or an alcoholic wreck. Thousands of drunkards have been made temperate men who have taken Golden Specific in their coffee without their knowledge and to-day believe they quit drinking of their own free will. IT NEVER FAILS. The system once impregnated with the Specific, it becomes an utter impossibility for the liquor appetite to exist. For sale by FRANK SHERER, Druggist, 43 W. IN CIRCUIT COURT FOR ROCK COUNTY.—Oliver C. Ford, Mary N. Crossett, and Marietta F. Ford vs. J. Maurice Smith and Mary C. Smith.

Notice is hereby given that in pursuance and by virtue of an execution duly issued from, and under the seal of the Circuit Court for the County of Rock and State of Wisconsin, on the 9th day of January, 1888, and on the 18th day of January, 1888, to him delivered, to enforce the judgment of said court made and entered in the above entitled action, in favor of the above named plaintiffs and against the above named defendants, on the 17th day of January, A. D., 1883, for the sum of $710.10, and duly docketed in the office of the clerk of said court on the 18th day of January, 1883, I have levied upon, seized and shall offer for sale at public auction at the front door of the court house in the city of Janesville in said county of Rock, on the 26th day of April, 1888, at ten o'clock in the forenoon of that day all of the right, title interest claim and demand which the said defendants, or either of them had on the 18th day of January, 1883, when said judgment was so docketed in the office of the clerk of said court, or that they or either of them. have had since the said 18th day of January, 1883, or that they or either of them may now have in or to the following described lands and premises, situated, lying and being in the city of Janesville, in the county of Rock and state of Wisconsin, or in or to any part or parcel thereof, to-wit: A piece or parcel of land bounded as follows: On the east, by the east line of land known as the Bunster lot, conveyed by Mary C. Smith to William S. Jeffris, and Malcolm G. Jeffris by deed bearing date October 9th, 1884, and recorded in the office of the Register of Deeds, for Rock county, on the 15th day of October, 1884, in volume 108 of deeds on page 544, and that line continued northerly in straight line to the east and west center line of lot number three (3) of the Janesville Water Power lots in said city; on the north, by the east and west center line of said lot number three (3) of said Janesville Water Power lots, extended from Rock river to the center of River street in said city; on the west by the center line of said River street: on the south by lands owned by F. S. Eldred, John Watson, John Fitzgerald, William B. Britton, Fenner Kimball, Oliver C. Ford, Mary N. Crossett, William S. Jeffris, and Malcolm G. Jeffris. Also that certain piece or parcel of land described as follows: Commencing at a point in the northerly line of West Milwaukee street, one hundred and fifteen and one half feet (115½) easterly from the southeast corner of a lot conveyed on or about April 1st, 1867 by Orsamus B. Matteson to Britton & Harrison, and at the point where the east line of land known as the Bunster lot conveyed by Mary C. Smith to said William S. Jeffris and Malcolm G. Jeffris by deed bearing date October 9th, 1881, and recorded in the office of the Register of Deeds for Rock county on the 15th day of October, 1881, in volume 108 of deeds on page 544, intersects said north line of said West Milwaukee street, thence northerly along the east line of said land so conveyed by said Mary C. Smith to said William S. Jeffris and Malcolm G. Jeffris by said deed last above mentioned, and known as the Bunster lot, and that line extended northerly in a straight line to the lands formerly owned by one Raymond and now owned by O. H. Fethers and M. G. Jeffris; thence easterly on the southerly line of said lands, so owned by said Raymond, and now owned by said O. H. Fethers and M. G. Jeffris, and that line extended, in a straight line, to the center line or middle of Rock river; thence southerly along the center line, or middle of Rock river, to the north line of West Milwaukee street, extended across said river; thence westerly along said north line of said West Milwaukee street to the place of beginning.

Also lots number twenty-one (21) and twenty-two (22), of the Janesville Water Power lots being that piece of land on the west bank of Rock river, in the city of Janesville bounded on the north by the lands of O. C. Ford and Henry W. Meyer, and on the south by the lands of the Janesville Cotton Mills; also the undivided three-fourths of lots number ten (10), eleven (11), twelve (12), thirteen (13), fourteen (14), fifteen (15), sixteen (16) and seventeen, of the Janesville Water Power lots, being that piece of land on the west bank of Rock River in the City of Janesville, bounded on the north by the lands of the Janesville Cotton Mills, and on the south by the lands of Charles W. Hodson.

LOCAL MATTERS.

The rapid growth of trade at the East End is proof that they are selling good goods at bottom prices. Give them a call.

WANTED.—To borrow $2,000. Security first class. Will pay 7 per cent. Enquire of Silas Hayner.

The display of fruit and vegetables at Vankirk Bro's Fulton Market cannot be equalled in this city.

$2 buys the same shoes at Richardson Whitton & Ray's that others sell for $2.40 and claim worth $3. A word to the wise is sufficient, why pay those prices for cheap goods under the name of bargains.

Choice fruits and bananas at the East End. C. E. BROWN.

Listen! "Just as good as I paid $2.50 for," is what a lady customer said when shown the real goat skin shoe we are selling for $1.95. Don't such remarks set you thinking? No wonder our competitors howl. We want your trade and are willing to make prices that will catch you. Come in and take a look. We will be glad to make your acquaintance.
BROWN BROS.

More protection for a dollar at the East End than any store in the northwest. C. E. BROWN.

FOUND. We have never found a customer who was disappointed in the style and wear of our $2.40 ladies' Dongola kid shoe. Don't take one said to be the same or guaranteed just as good, be sure to get the genuine and take none else.

—J. H. Gateley is removing from North Bluff street to his new home on Washington street, first ward.

—The Rev. W. F. Brown, who is attending the meeting of the Madison Presbytery at Beloit, is seriously ill.

—Britton & Kimball's furniture store is soon to be entirely remodeled. On the second floor carpenters are already at work.

—Janesville Commandery No. 2, Knights Templar, assemble in regular semi-monthly conclave this evening at Masonic hall.

—William Ruger and Capt. Edward Ruger, are in Menasha on business connected with water-power suits in the Menasha courts.

—The Woman's Mission Circle of the Baptist church will meet with Mrs. Mary B. Lane, on North Bluff street, Friday, the 13th inst., at 3 p. m.

—From the programme that has been arranged it is safe to say that the Court Street Literary club's entertainment Monday night will be a complete success.

—A. P. Bennett's condition is more serious than at any time since the beginning of his illness. Doctors have now practically given up hope, and fear that the end is not far off.

—The Children's Musical society will meet at four o'clock p. m. to-morrow A full attendance is desired, as matters pertaining to the closing concert of the season, to be given in June, will be decided.

—An adjourned meeting of the Business Men's Association will be held on to-morrow evening, at which the proposition to establish a "market day" in this city will be considered. A full attendance is requested.

—The Rev. Olin A. Curtis and wife are now on their way home from Germany. A very interesting paper from the pen of Mrs. Curtis on "Kaiser Wilhelm" appears in this week's issue of the Northwestern Christian Advocate.

—The members of Rock Assembly, Knights of Labor, with a large number of friends, enjoyed a social dancing party last evening at Apollo hall. Anderson's orchestra furnished the music, and all the arrangements were carried out to the pleasure of the entire company.

—On Monday evening next the closing party of Terpsichorean Club will be at the Armory. Each member is privileged to invite two couples, the floor will be canvased, Anderson's orchestra will furnish the music, and the managers intend the last party to be the most pleasant of the season.

—The Ladies Aid Society of the Presbyterian church will hold a Leap Year social on Friday of this week at the residence of Mr. Alexander Galbraith, head of East Milwaukee street. Every lady is invited to attend and bring a gentleman. Supper begins at 6, price 15 cents. Everybody come.

—Funeral services over the remains of Jennie, infant daughter of Mr. and Mrs. Milo Wood, of the first ward, were held this afternoon at the home of the parents on Franklin street. Rev. James Slidell of Trinity church, officiated. At the close of the services the remains were taken to Oak Hill for interment.

—The old "Burr Robbins" farm begins to present a lively appearance. Quite a number of last season's employes are already on hand, and the work of preparing for the coming campaign is being vigorously pushed. Especial attention is being paid to breaking in the horses and getting the wagons ready for exhibition.

—Some time during the coming summer Janesville people will be given an opportunity to hear the Rev. Olin A. Curtis, formerly pastor of Court Street church, speak on "Martin Luther." Mr. Curtis has been in position to study the great reformer's life from every point of view and his lecture will be looked forward to with lively anticipation.

—W. E. Collette, a fly young traveling man of Green Bay, became engaged to Miss Mamie McGillan, of Appleton, while being equally solid with Miss Nora Kalb, of Green Bay. He was to have married the Appleton young lady yesterday. Collette's duplicity was discovered in the nick of time. He has fled leaving two girls behind, both of whom are fortunate in having escaped a union with him.

—It was the last of the Quadrille club parties that drew Janesville young people to the Armory last night. And it certainly was a success, for the floor was well-filled. Johnny Smith, who furnished the music, admitted that it was one of the best parties of the series. Everybody danced and much regret was expressed because the series had come to an end. The parties have been popular from the first and the young men in charge deserve much credit for their successful management.

—The Recorder, of this morning, has something to say, editorially, regarding moral reform, and berates the Gazette for naming some of the evils that beset the community. It is a little amusing to note the frantic efforts made by this reform organ. It happens to be the mouthpiece of this reform administration, possessing all the symptoms, but lacking the stability, to champion its professed convictions. Democratic reform and democratic morals go hand in hand; an empty profession, lacking sincerity or consistency. A high moral standard is not in keeping with the rank and file of its constituency, and this deficiency is nowhere more apparent than in the columns of the press that caters to its depraved tastes.

The most beautiful woman in New York takes Vinegar Bitters to clear her complexion.

HE SET FIRE TO THE CORK.

An Explosion Followed as a Matter of Course.

Eddie Marsh, who was injured by the exploding powder bottle yesterday, is in the hospital and is receiving the best of care. It is feared, however, that the injury to the right eye may affect the other also and leave the boy totally blind.

Nobody has been able, so far, to account for the explosion. It is inferred, however, from the boy's confused explanation that he was arranging a little fourth of July celebration of his own and wanted to set fire to the powder. The only way that occured to him was to light the small end of the cork, press it into the mouth of the bottle and turn the bottle upside down. It was only by the merest chance that he escaped fatal injuries.

THAT BLUE JAY SOCIAL.

What Will Be Done In Post Hall To-Night.

A very pleasant evening will be spent by those who attend the Blue Jay social. The Woman's Relief Corps has prepared an entertainment of much merit and Post Hall should be well filled. The programme will include the following: Overture by the orchestra; opening address by Hon. Mr. Norcross; song by the little Pabst girls, with zither accompaniment; recitation by Mrs. Christman; Blue Jay song, Mr. Kimberly; orchestral selection; song, Little Helen Cogswell; speech, Ogden H. Fethers; recitation, Miss Lou Fenton; song, Edith Hayward; duet, Carrie and Helen Cogswell; address, Dr. A. E. Bulson; selection by the orchestra and dancing.

"IMMORTELLES."

Under this title G. P. Putnam's Sons have published in very tasteful form the poems of Cora M. A. Davis, formerly of Rock county. The book is now on sale at the store of James Sutherland & Sons. It is a collection of the writings of Mrs Davis originally made with the intention of printing a volume simply for private distribution among relatives and friends as a memento of her whom they had lost. Owing to repeated demands however, Mr. Davis decided to place it before the public, and the recognition that has already been given make its success assured.

Spending much of her life in frontier states, the author learned to know and to love all that was beautiful and sublime in nature, and to delight in the scenes and associations of that beautiful "underworld" of which she sang.

"Immortelles" breathes out the freshness of the dancing brooks and the grandeur of the mountains from every line. It brings to the reader a glimpse of the out-of-door world under whose inspiration many of Mrs. Davis' most beautiful poems were written. It is well worthy a place in every library.

WHY MISS PETERSON WAS REMOVED.

Miss Peterson, the late assistant postmaster, was removed for cause, or rather for causes beyond her control. She was neither a man or a democrat. The assistant postmaster of this reform administration should be a full fledged democrat in sympathy with the department and qualified to work for the party. So Mote it be.

THE GAZETTE STEAM BINDERY

Facilities for Doing Special Work at Low Rates.

The Gazette Steam Bindery has now a special binding for the "Pictorial History of the World's Great Nations," and is prepared to do this work in a first class manner, cheaper than any New York or Chicago bindery. Subscribers to this work will do well by calling at the Gazette Bindery before placing their orders for binding. We have a fine line of samples on exhibition.

Housekeepers, during house-cleaning time, should gather up all their old books and magazines, and send them to the Gazette Steam Bindery for rebinding or repairs. We make a specialty of this class of work. Our prices are very low.

Save your old books and send them to the Gazette Steam Bindery for repairs or re-binding. Such work costs but little, and your books will be made to appear new. Prices for this class of work very reasonable at the Gazette Steam Bindery.

AFFLICTED.

Georgie comes down to breakfast with a swollen visage, whereupon mamma says to the four-year-old: "Georgie, don't you feel well? Tell mamma what the matter is." Georgie, full of influenza, replies: "No, I don't feel well. Bofe of my eyes is leakin', and one of my noses don't go."—*Harpers Bazaar.*

Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are fidgetty, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whisky, and which stimulate you for an hour, and then leave you in worse condition than before. What you want is an alterative that will purify your blood, start healthy action of liver and kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at Frank Sherer & Co's. drug store.

FELLOWS.

—J. Hopkins & Sons,' first importation of English shire horses arrived at this station on Wednesday of last week, and are pronounced by all that have seen them to be the finest ever seen in this part of the country. The shipment consisted of six stallions one of which died in transit near Chicago, estimated loss $1,800. These horses were bought at the London stock show, and are the very best that could be purchased.

—Lew Fellows disposed of his "blacks" lately for the snug sum of $450, but we are anxious to know who the Geo. Fellows is that "Center" reported as having sold a team for $500.

—G. W. Link, of Randolph, was a guest of G. B. Wilcox last week.

—Sprague started on Monday last for Greensburg, Kansas, where he intends purchasing land.

MUNICIPAL AFFAIRS.

Speculations Relating to the Organization of the New Council.

The School Board and the Officers to be Elected Under its Control.

There is considerable talk concerning the organization of the incoming common council, and the election of officers by that body. The organization will be in the hands of the republican members, yet they do not propose to "carry a high hand" in dealing out the small "loaves and fishes;" on the other hand they will look to the best interests of the city in making selections. While it is not definitely settled who the officers will be, it is generally admitted that Alderman James A. Fathers, of the third ward, will be reelected president of the council although that gentleman is not at all anxious for the honor, claiming that there are older men in the council who would fill the president's chair as well as he. Mr. Fathers has ably filled the presidential chair the past year, and has given general satisfaction, only one decision having been appealed and that at the last meeting.

A health officer will be elected in place of Dr. O. P. Robinson. There are no candidates in the field at this time, yet there are several names mentioned in connection with the office—Dr. E. E. Loomis and Dr. James Mills being the favorites. It is not known that either of these gentlemen will accept the position.

Marshal Hogan, although a democrat, will not be disturbed. It is whispered around by a few democrats that they would be glad to "have Hogan's scalp;" that under republican instruction he will be a "little too energetic in enforcing the laws." The republicans claim that that is what the marshal is for, and they will give him a chance.

Two assessors will be elected at the first meeting of the council, one for the east side of the river and one for the west side. It has been the custom for years, no matter which party was in power, to elect one democrat and one republican and no doubt this rule will prevail this time. Last year the council elected J. A. Blount (democrat) for the east side, and Chas. E. Church (republican) for the west side. Probably the same gentlemen will be re-elected this year, as they are familiar with the laws, and also the the property within the city.

Dr. C. L. Martin will be re elected Pound Master.

There is also much talk concerning the committees and who will be the chairmen placed in important positions. There are only four committees that amount to much—Finance, Fire and Water, Gas Light, and Highways, Streets and Bridges—there is very little use for the remainder of the committees and no ornament. The fire committee will probably be changed so as to include a member from each ward, making five members instead of three. Just who will carry off the prizes in the four committees named is an enigma at this time, but there is plenty of timber to select from.

It is also intimated that the expense of the Saturday night and Sunday special police force will soon end, and if necessary an extra policeman will be employed all the time. The city is now paying regularly eight dollars per week for this service, and it is claimed an extra policeman can be secured if necessary for a very small addition to this sum.

Of course this is all outside talk, but "straws show which way the wind blows."

The new school board will meet some time next week. This board will elect a president, a clerk, a city superintendent and census taker.

The members of the board are very reticent regarding the selection of officers, and but one name is heard spoken of in connection with the clerkship, and that At this time there appears to be no strife for the several places, and probably there will be none. The first regular meeting of the board will be watched with interest by those taking an interest in the public schools.

A SPARROW HUNT.

Something For the Janesville Gun Club and Sportsmen.

The following associated press dispatch is republished by request of several parties who are interested in the extermination of the little pests:

MARION, Ohio, April 11.—The members of the Marion and Harber Gun clubs, of this place, fell into line at an early hour this morning and began the destruction of sparrows with shot-guns and Floberts at a premium of 10 cents per dozen. The members were deployed at different points of the city at break of day and began firing on the little pests. It was a reminder to the soldiers of picket skirmishing when the union and confederate armies were feeling for each other during the war of the rebellion. The number in the actual engagement was about twenty, but a number of volunteer marksmen are trying their hands. The number of birds reported shot ranges from 25 to 120 apiece, and sparrows are scarce here, too.

Worth Knowing.

Mr W. H. Morgan, merchant, Lake City, Fla, was taken with a severe cold, attended with a distressing Cough and running into Consumption in its first stages. He tried many so-called popular cough remedies and steadily grew worse. Was reduced in flesh, had difficulty in breathing and was unable to sleep. Finally tried Dr. King's New Discovery for Consumption and found immediate relief, and after using about a half dozen bottles found himself well and has had no return of the disease. No other remedy can show so grand a record of cures as Dr. King's New Discovery for Consumption. Guaranteed to do just what is claimed for it. Trial bottle free at F. Sherer & Co's. drug store.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 32 degrees above zero. Clear with north wind. At one o'clock p. m. the register was 49 degrees above zero. Clear with north wind. For the corresponding hours one year ago the register was 48 and 84 degrees above zero.

AROUND THE WORLD.

SLAVEHOLDERS in Brazil are opposing the final extinction of slavery on the ground that it will be impossible to carry on coffee-planting on a large scale if slavery is abolished.

IN Bogota there are no carriages which can go through the streets, or, rather, there are no streets which carriages can go through. The streets are so paved that the gutters are in the middle.

RUSSIAN newspapers state that negotiations are being initiated for the construction of three great Russo-Chinese railways, one between Semipalatinsk and Shanghai, another between Chita and Pekin.

IN Algeria a curious custom prevails among the Jews during passover week. Impressions of the hand in all colors are made upon the walls of the houses, the marks varying in number, in accordance with some part of the peculiar ceremonies.

THE once remunerative occupation of mole-catching in Scotland is now little followed, it having gone into disrepute. The trade was introduced in the middle of the present century, and apprentices were required to serve seven years.

TRAVELERS in Mexico are sometimes treated to a dish prepared by the natives from young scorpions. These are obtained by the hundred from the nest, and after having been divested of their sting are converted into a sort of omelet.

IN Japan the women take to the fields, road-making, etc., with their husbands, on terms of perfect equality. There is nothing of slave and master in the relations of wife and husband there; if anything, the women seem to take the lead in the affairs of life.

POST-OFFICES in Mexico are run upon a very loose system. When an English-speaking person inquires for mail the whole contents of the office are sometimes dumped before him, from which to select his own matter. In serving the natives, however, more caution is exercised, from what motive is a mystery.

THERE are in Paris thirty-six licensed venders of horse-meat. A St. Louis man, who has cultivated a taste for this kind of meat, says he likes it better than choice veal, which it resembles. He also thinks that one of the most appetizing dainties that he can place on his table is a bit of well-roasted donkey meat.

THE sulphur deposits on the sides of Popocatapetl, the great Mexican volcano, are among the richest in the world, but owing to the slackness of the natives they have not been worked with any system or vigor. But now it is said the mountain is to be attacked energetically, and if so, the commercial results will be important.

ALL the lunatics of Flemish Belgium are colonized at Gheel, where they are boarded out with the inhabitants, live as members of the family, assist in their work and have liberty to move about at will. The regularity and healthiness of the life led by the afflicted inhabitants of Gheel restores a considerable proportion of them to their right mind.

AN English company is building a railroad twelve hundred miles farther north than any railroad in Canada. It is to extend from Lulea, on the Gulf of Bothnia, to Lofoden, on the North sea, and will be situated partly within the Arctic circle. The winter has not, however, been found too severe by the English employes and their wives, and the snowfall is less than in some more southern latitudes, while the darkness of the long winter nights is partly compensated by the light of the aurora.

A COMPLAINT by the women of Berlin has been presented to the Prussian Minister of Education against the custom of appointing masters instead of mistresses for the upper classes of these schools. It is asserted that only the managers and masters approve of this system, which was agreed upon at Weimar in 1872, while the parents are opposed to it on the ground that the masters do not understand the inner life of the girls, who are thus educated in a purely external, inconsistent and superficial manner.

THE women in Russia do two-thirds of the work in the country. There are immense wheat, oat and hay-fields everywhere, and in August there is great activity in the country. The large majority of persons at work are women. They wear short dresses, plain and straight, and a long piece of cloth over their heads, like the Arabs. The wheat is sown broadcast, and if not cut by the women with sickles, is harvested with the old-fashioned scythe, which has a two-pound snead and a broad, short blade.

INDUSTRIAL JOTTINGS.

THE outlook among the tool and implement works in the West is good. There are no strikes or agitations.

SAXONY and Thuringia are the home and paradise of dolls. The annual production of dolls' stockings alone in Saxony is 35,000 dozen. Thousands of shoe-makers find constant employment in making dolls' shoes. The export of dolls to England, France and America is very large, and increasing every year.

THE potato crop of the United States in 1887 aggregated 134,000,000 bushels on an acreage of 2,300,000, which was a yield per acre of fifty-six bushels. In the last eight years, 1883 was the "banner" potato year. In that season the yield was 208,164,425 bushels, raised from 2,289,275 acres, which was a yield of ninety-one bushels per acre.

IN London 20,000 men earn their living at carpenter work, 4,000 in Paris and 4,000 in Berlin. Hours in London are 52½ per week, wages 18 cents per hour. In other cities in England carpenters work 58½ hours and at 12 cents an hour. Employment is precarious. In Paris the eight-hour day prevails and wages are $1.70.

BROOMCORN is said to be a native of India; it has a jointed stem like a weed, and grows to the height of about ten feet, and bears an effuse spike of which the brooms are made. In 1798 broom-corn began to attract attention and was largely used in the manufacture of brooms, which then sold for 50 cents apiece, the Shaker societies in the United States being the principal manufacturers.

THE statistics of life insurance during the last year show an enormous business. The new insurance written by the standard organizations will run over $400,000,000, and the amount disbursed to policy-holders, in death, endowment and dividend payments, to more than $70,000,000. The total number of policies now in force is about 820,000, covering insurance to the sum of more than $2,100,000,000. The payment of this $2,000,000,000 and upwards is guaranteed by present assets, approved by the various State insurance officials, amounting to $530,000,000, and the certainty of the future interest thereon.

A NEW material called "nemortolythe" has been introduced into the manufacture of paper. It is said to be far superior to plaster or kaolin. It contains from ninety-five to ninety-six per cent. of silicate of magnesia and resembles in its composition asbestos and other silicates of magnesia. It is distinguished by its great purity and its freedom from peroxide of iron, from sulphur and from lime. It is of a brilliant white color, and paper from it takes a very high glaze. It is fibrous, and is therefore susceptible of felting. Those who have used it speak very highly of it.

Cranks at the German Capital.

The number of deranged people trying to gain access to the Emperor of Germany is remarkable. Hardly a day passes without such an occurrence. The other day two such unfortunates entered the palace simultaneously. It was a man and a woman. The latter was the wife of a poor boatsman, asserting that she was a near relative of the Emperor's and had to see him after years of absence. The man was well dressed with a look of distinction about him, and a flow of white hair on his head and long whiskers, altogether a venerable-looking, sympathetic figure. He said he had engaged to marry the daughter of the King of Italy, and being a German and a subject of the Emperor he had to obtain His Majesty's permission before perfecting the marriage. Both persons were taken to the insane ward of the Hospital of the Charite at Berlin.

STEAM HEATING APPARATUS.

The Bids for Heating the New Second Ward School Building.

Hills Brothers Call Public Attention to their Rejected Bid.

To the Editor.

Permit us through your columns to make a few statements regarding the manner in which the contract for heating the new second ward school building has been handled by the school board. We have no desire to annoy your readers with the history of this question from the date of its issue, but would simply say that after the board had adopted steam heat under instruction from the common council, and advertised for bids on the same, we took it for granted that they were acting in good faith. We were therefore surprised to learn that when the bids were opened at the last meeting of the board, that our bid, although the lowest, was entirely ignored.

The explanation offered by members of the board for this action is to the effect that our bid of $1,200 to heat the building as per plans and specifications is without a guaranty, and our bid of $1,450, with a guaranty necessitates a change of plans.

To this attempt at an explanation we would say, that the plans make no provisions for heating the halls, and as the president of the board insisted that the halls should be warmed, we took the liberty of adding to the plans not only the necessary radiators to warm them to the temperature stated by the president, but additional radiators for the school rooms. As to the change of plans suggested in our bid of $1,450, that is the merest subterfuge. The plans provide for 180 feet of radiating surface in the corridors, and nothing in the halls. We proposed to increase this radiating capacity to 330 feet and locate the radiators where both corridors and halls would receive the benefit. We are not kickers but we are interested in the success of steam heat, and believing it to be the most practical system for public buildings, we are particularly desirous that the first school building to adopt it in the city should be so thoroughly equipped as to admit of no chance of failure. Our bid of $1,450 provided for every contingency furnishing twenty-five per cent more than the plans called for without in any manner changing the system or plans, unless enlarging them can be so construed. Why the bid was ignored by the school board, when it was $85 below any other bid is a question that the public will perhaps never understand.

The public is interested however, in having the building thoroughly heated throughout, as we have enough cold school houses now on hand, and the tax payers we feel satisfied would like to know why the school board advocated paying $1535 for a steam plant when they received a bid for the same identical plant, only that it was twenty-five per cent larger in capacity, for $1450.

CHEAP LAND EXCURSIONS.

To enable all parties interested to make a trip to the country reached by the Chicago & Northwestern railway system, and familiarize themselves with the splendid opportunities offered for settlement and investment, that company will run a series of cheap land excursions during the months of March, April, May and June. Tickets for these excursions will be sold from all principal stations to various points in Iowa, Minnesota, Dakota and Nebraska, at the very low rate of one fare for the round trip, and will be good for return passage at any time within thirty days from date of sale. For full particulars apply to agents of the C. & N. W. Ry., or write E. P. Wilson General Passenger Agent, Chicago.

Facts Worth Knowing.

In all diseases of the nasal mucus membrane the remedy used must be non-irritating. The medical profession has been slow to learn this. Nothing satisfactory can be accomplished with douches, snuffs, powders, syringes, astringents or any similar application because they are all irritating, do not thoroughly reach the affected surfaces, and should be abandoned as worse than failures. A multitude of persons who had for years borne all the worry and pain that catarrh can inflict testify to radical and permanent cures wrought by Ely's Cream Balm.

AIMED AT GOVERNOR HILL.

The New York Senate Orders an Inquiry Into Alleged Corruption.

ALBANY, N. Y., April 12.—The Senate yesterday, after a heated debate, unanimously adopted a resolution for the appointment of a committee to investigate certain charges in regard to alleged corruption in the administration of some of the departments in the municipal government of New York City.

While the terms of the resolution are quite general, it was understood to be an attack on Governor Hill. The story published was, in effect, that Governor Hill had secured a change in the personnel of the aqueduct commission, and then appointed his political friends to the vacancies, with the result that the firm of O'Brien & Clark, contractors, were enabled to secure the contract for a section of the new aqueduct, though they were the highest bidders; that they sub-let it to O'Brien & Clark, and that O'Brien individually indorsed Governor Hill's note for $20,000 to be spent during the late Gubernatorial campaign; and that John Keenan, the "boodler," now in Canada, discounted one of them.

Governor Hill said last night that near the close of the campaign of 1880 the Democratic State Committee were short of funds and appealed to him to aid them. In connection with certain other Democrats he drew two notes, aggregating $15,000, which he gave them. They were discounted and the money used in the legitimate work of the campaign. When they were due they were paid, various well-known Democrats contributing the money. The heaviest contributor was John O'Brien, of O'Brien & Clark, and the chairman of the State Democratic Committee. Governor Hill declared that the attack was instigated by the quarantine officials of New York, of which department ex-Senator T. C. Platt is the head and whom Governor Hill has vainly tried to oust.

STANFORD AS A CANDIDATE.

He Would Accept It If Tendered—Protection for Our Infant Industries.

NEW YORK, April 12.—Senator Stanford, of California, consented to an interview regarding the announcement from San Francisco that he was an avowed candidate for the Republican nomination to the Presidency. He said: "The possibility of the American people ever desiring to have me serve as President is so slight that I never thought of offering myself as a candidate. Were it tendered, however, I would take it." Regarding the political outlook the Senator said the Presidential fight would be on the tariff issue, President Cleveland's message having forced it to the front. "We want to do all our own manufacturing at home," said the Senator, "and employ the surplus labor we now have instead of going abroad for our goods. Protection is what we want. The fruit industries, for instance, must be protected from the Mediterranian product. Of course I am in favor of restricting the importation of Chinese immigration, because California is in favor of it, and I believe a white race is better than a mixed race. I am in favor of the Government in franchising Chinese and the issuing of silver certificates."

A Leader of Thieves Captured.

READING, Pa., April 12.—Morris Keiser, a well-known Sunday-school superintendent at Moslem Springs, in this county, was lodged in jail here yesterday. He is charged with being chief of a gang of desperate thieves known as "The Committee." The evidence of his guilt was found in a large store-box buried in his lot. The contents of the box were shoes, clothing, jewelry and other plunder, part of $2,000 worth of goods stolen from the store of Schelbe & Stevenson, of Moslem Springs. Four others have also been arrested and much of the stolen property recovered.

An Illinois Central Loan.

SPRINGFIELD, Ill., April 12.—The Illinois Central Railroad Company filed a deed of trust with the Secretary of State yesterday to the Central Trust Company of New York, pledging $16,350,000 first mortgage bonds of its branch lines as security for $15,000,000 borrowed to complete and equip the branches now in operation by the Illinois Central. New bonds bearing 5 per cent. for sixty years represent the indebtedness.

Nobody Hurt at Cumberland Gap.

KNOXVILLE, Tenn., April 12.—The reports about the strike at Cumberland Gap have been greatly exaggerated. About 100 men at work in the Powell Valley railroad tunnel struck last Monday for increased pay. On Monday a few men, mostly negroes, at first refused to strike, but were forced out by the strikers firing a volley into the tunnel. Nobody was killed or wounded. Most of the strikers have since gone to work.
